PROFILE SUMMARY

I am Tanya Dubey, born in Kanpur and brought up in Gurgaon. I have done my B.Sc. from Gurugram University (2023), now pursuing M.Sc (Computer Science). After graduation, I joined an online web development course where I built multiple projects after completing every chapter using HTML, CSS, JavaScript, Tailwind CSS, Express, React, MongoDB, Next.js. I have Completed Internship Project and gained more skills and knowledge in this field. I am still building more projects to gain complete knowledge and skills in this field and eager to leverage my education and practical experience to web development Field.

INTERNSHIPS AND PROJECTS

INTERNSHIPS - Project : The Pet Shop

18/04/2024 - 18/05/2024

Afame Technologies Company

- I am glad that 'Afame Technologies' Company gave me this beautiful opportunity to do an internship in the field I am passionate about.
- In this internship I built a website of pet selling shop, shop which provide services for pets, and also shop for adoption of pet in which I used my knowledge of HTML, CSS and JavaScript which I learnt from my Online Web Development Course.
- I made this project with my knowledge, skills and passion about this field and also include my hard-work for building this project.
- Skills used - HTML, CSS, Java-script, Hard-Working, Time Management, Web Designing, Front End Design

PROJECTS -

During Web Development Course

- Skills used - HTML, CSS, JavaScript, Hard Working in **Spotify Clone**.
- Skills used - HTML and CSS in **Netflix Landing page clone**
- Skills used - HTML and Tailwind CSS in **Twitter Home Page**
- Skills used - React and Tailwind CSS in **To-do List Application** where pending work can be added to list and tick the work when completed .
- Skills used- React, Tailwind, MongoDB and Express in **Password Manager Application** where account/websie and their passwords can be saved.
- Skills used - Next.js , Tailwind css in **'Get me a Chai' application** where we can collaborate with favourite creator and help them in building projects.
- Skills used - Next.js in **Date-Picker Calendar application** which lets user to select a date, a date range, or both .
